TREE SALES

EVERGREENS

AMERICAN ARBORVITAE-This popular evergreen has a natural pyramidal shape, broad at the base and tapering to the top. Soft fan shape leaflets are always lush green. American Arborvitae plants make one of the finest year-round hedges and are also perfect for windbreaks. Grows about 50' to 60'H.

BLUE SPRUCE-Most popular spruce grown in the country. Has bluish-green to steel-blue foliage which makes it very desirable for aesthetic value, as well as for Christmas trees and windbreaks. Prefers well drained soils and full sun. Growth rate is slow but could reach heights of 100 ft.

CONCOLOR FIR - Without a doubt Concolor Fir is the most beautiful and easiest to care for. Also known as white fir. Withstands heat and drought better than any other evergreen. Medium to fast growing in moist loamy soil. 100 ft.

NORWAY SPRUCE-A fast growing conifer used for windbreaks, wildlife and as ornamentals. Prefers poorly to well drained soils and full sun. Has a growth rate of 1 ft. per year and will reach 80 ft. in height

WHITE PINE-A fast growing pine, with soft, green-blue needles, 4" long. Prefers moderate drained soils and tolerates more shade than other pines. Excellent for windbreaks, sound barriers and Christmas trees. Grows to 80' to 100'.

FRASER FIR-*Kissin'* cousin to the Balsam, but with a little flatter stem & needle. Great fragrance. The Cadillac of Christmas trees with silvery underside branches. Likes cool well drained site but not dry and sandy. One of the most beautiful evergreens. Grows 30'-50' tall.

DECIDUOUS SHRUB

BUTTERFLY BUSH - Purple fragrant flowers that bloom July to October. Fast Growing. This butterfly bush will attract clouds of beautiful butterflies and hummingbirds. Somewhat drought tolerant. Makes a great cutflower. Fountain shaped perennial growing to height of 3 feet makes this a great choice for a back border. Cut back woody shoots early spring to ensure new growth will hold purple cone shaped majestic spikes.

PURPLE LILAC—Oval leaves bears 4-8" panicles; purple flowers are extremely fragrant in early to mid May.

GROUND COVER

ENGLISH IVY-This is the classic ivy, withstanding the coldest of winters. Grows well in shade and thrives in moist soil and northern exposures. Glossy green leaves are smaller, more delicate which form a dense evergreen blanket at the base of trees or walls. Space plants 6"-8" apart.

PACHYSANDRA-One of the most attractive lustrous evergreen groundcovers available. It is maintenance free and VERY HARDY. It will even grow under maples and pines. Plant 6 inches apart sun or shade. White flowers in March and April Water liberally. Fine for terraces or any place where grass is not successful.

"NEW" LAMIUM -Pink Pewter Great low growing ground-cover for semi shaded area. Pink flower on silver green foliage. Plant 6"-8". Brightly colored leaves with bloom in spring and fall.

DECIDUOUS TREES

BLACK CHERRY - Dense dark green leaves; fast growing to 60 ft. It has white flowers in May, leaves turn yellow to red in fall. Red fruit in September makes it a great feeding station for birds and wildlife. A valuable lumber tree for furniture. Likes well drained, moist soils and full sun.

RIVER BIRCH - Fast growing trees noted for its color, bronze/cinnamon colored shaggy bark & lustrous green diamond shaped leaves turning yellow in the fall. This species can be clumped. This is bore resistant and robust. Tolerant of wet soils or dry, grows to 70 ft.

RED MAPLE-A fast growing shade tree. Early fall colors with leaves turning to a deep red. Prefers moist soils, however is tolerable of others. Grows to 60' to 90'.

NORTHERN RED OAK - - The fastest growing of all oaks. Red Oak is tolerant of urban conditions; i.e salt. This long-lived shade tree's green leaves change to russet red in the fall. It is valuable to the furniture and lumber markets. It also provides food and shelter for wildlife. Grows 60'-75'.

TULIP POPLAR - Indiana's State Tree. A fantastic fast growing timber & yard shade tree, it grows to 50-90 feet and prefers well drained soils but will tolerate moist. Leaves turn bright yellow in the fall. It produces yellow tulip shaped flowers in the summer.

HAZELNUT - Grows 6-8 ft. Large fast growing tree with showy spring flowers. Also known as filbert. Edible nut. Grows in sun or shade, dry or moist or low ph.

WHITE FLOWERING DOGWOOD - A small ornamental reaching 15 ft in height with beautiful clusters of white spring flowers and scarlet leaves in the fall. Grows in any soil. Good wildlife feeding station. Great accent for landscaping as well.

REDBUD - Spectacular small ornamental tree, purple buds opens to reddish purple flowers in May with the tree's dark contrasting bark it is a beautiful sight. Great for landscaping. Heart shaped leaves.

PERENNIAL FLOWERS

GOLDEN Yellow DAYLILIES - Hardy and fast growing. These lovely daylilies bloom in July and August come up every year and spread. Stella De Oro 3" blooms 18-24" tall. Bright golden blooms.
