

Flexible spending accounts

Saving employers and plan members money

The UMR flexible spending account (FSA) program provides an effective way to offer a new benefit without increasing costs. It gives employees and plan members the ability to set aside pretax dollars to pay for health and/or dependent care expenses not covered by other benefit options.

Our FSA program is also a great way for employers to:

- Provide another incentive to attract new employees
- More easily compensate for cost-sharing increases
- Streamline claim processes
- Reduce Social Security taxes

A flexible program offering

The FSA program is a comprehensive product offering that provides several options and advantages, such as:

- Health and dependent care accounts
- Direct deposit
- A 75-day grace period or \$500 carryover
- Limited purpose accounts
- Transportation accounts
- Automatic claim reimbursement
- Paper claim reimbursement
- A flexible benefit debit card

Health care plan options

The health care spending account can be used for a variety of expenses that may not be covered by any other source, including:

- Health insurance deductibles and co-payments
- Eye exams, glasses, contacts and corrective laser eye surgery
- Dental care, including braces
- Routine physicals, X-rays and lab fees
- Prescription co-payments
- Over-the-counter medications/drugs with a prescription

Dependent care plan options

Dependent care allows reimbursement for work-related expenses up to \$5,000 annually per household, including:

- Day care for children under 13
- In-home services performed by a full-time, live-in housekeeper who cares for qualified individuals
- Services for family members who cannot take care of themselves and are dependent on the employee for more than half their support

The UMR FSA gives employees and plan members the ability to set aside pretax dollars to pay for health and dependent care expenses.

A UnitedHealthcare Company

(Continued on back)

Dependent care allows reimbursement for work-related expenses up to \$5,000 annually.

Web claim entry

If an employer does not wish to offer automatic reimbursement or the debit card, Web claim entry is a much speedier alternative to standard paper claim reimbursement. By faxing or e-mailing a scanned electronic copy of receipts, members can receive reimbursement in 48 hours or less.

Additional services

As a full-service provider of multiple benefits, we offer a single source for medical, dental and pharmaceutical claims administration as well as FSA administration. We provide an integrated product in which all processes and systems are controlled in-house. That means all of a company's PPO benefit products can be administered by UMR.

For more information on our FSA program, contact your UMR representative.
